

Natal Chart Report

Introduction to Your Birth Chart Report

What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign.

If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Additionally, aspects between the planets are listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case.

Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days. Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30 days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart interpretive report, and a chart wheel appears at the end of the report.

Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

Aspects

The following table shows the planetary aspects in your natal chart. Interpretations of these factors are found below. The numbers listed under the column "Value" serve as a relative rating system for each aspect and are determined based on the planets involved, the aspect type, and the orb of influence. Negative values suggest more stressful or challenging influences while positive numbers show more flowing, easy energy.

Natal Chart Report

BIRTH CHART

This birth chart report shows the positions of the planets for Zachary.

The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Pisces

As the twelfth and last sign of the zodiac, Pisces contains within itself a little experience of all the signs. This gives Pisces Suns the ability to identify with people from all walks of life--from all backgrounds--in some way. These individuals are not only changeable and adaptable, they have open minds and tremendous understanding. But Pisces itself is often misunderstood. Pisces Suns may spend a good portion of their lives yearning for understanding, and the other part in a state of divine discontent. Suffering is sometimes glamorized in the Piscean world.

Sun in Pisces people are frequently pegged as wishy-washy, but this is all a matter of opinion. What you will find behind a vaguely

directionless, spacey manner is a deep person with real dreams. Their dreams are more than getting that picket fence or making it up the corporate ladder. Pisces are tuned in to a higher purpose, and their dreams transcend the individual. A deep love for humanity and compassion that knows no bounds are found with this placement of the Sun.

Pisceans are *not* known to be cutthroat business types, nor are they given to throwing themselves out into the world aggressively. But make no mistake, Pisces can be extraordinarily successful when given a chance to express themselves. The arts, marketing, music, teaching, drama, and healing arts are all fields in which Pisces can find expression. Their imagination, attunement to humanity, and remarkable intuition endow them with enviable gifts of insight and creativity.

Pisces is a sensitive sign--both sensitive to criticism and sensitive to others' feelings. Easily touched by human suffering, at least in theory, Pisces wouldn't hurt a fly. They believe in people, are deeply hurt by compassionless human behavior, and have difficulty saying no. Harsh realities are avoided either through escapist behavior or self-delusion, but every now and again, reality does raise its ugly head and hits Pisces over the head--a sad time indeed! Pisces retreats into their own world, self-pitying and giving pep talks to themselves ("I will never trust again!"). Rest assured, though, that these periods are short-lived and useful. Pisces derive energy from their (generally short) bouts of self-pity. They come back stronger, with a spring in their step, ready to face the world again, and just as, if not more, compassionate and trusting as they were before.

Some might even wonder if Pisces finds pleasure in suffering. Sometimes this is the case, but most of the time, Pisces pulls a lot of creative energy from sadness. Pisces is the poet or artist with angst, although this trait is often more apparent with Moon in Pisces.

Some find Pisces' tendency to be late for appointments, sometimes spaced-out behavior, and absent-mindedness amount to irresponsibility. Pisces would be shocked to know this, however. Who me? Pisces wonders. Irresponsible? Pisces Suns do care--their love knows no bounds--but their retreats from ordinary life (whether they are as simple as daydreams or actual departures) that they so seem to need now and again are not always understandable to no-nonsense signs, such as Virgo or Aries. Many Pisces seem almost allergic to things like shopping lists, maps, directions, and instructions, and for some brave souls, even watches -- they prefer to feel their way through life than to follow some plan. We find plenty of artists, poets, and musicians with Sun (and other personal planets) in Pisces.

Short description:

She is compassionate and sentimental. She likes isolated occupations: administration, archives, history. Spirit of self-sacrifice.

Potential issues: a tendency to be led astray, lack of experience, or inability to apply experience practically. Lethargy, over-sensitivity, and emotionalism.

Pisces with ascendant Sagittarius

Sun in III: The Sun is in the third house

You need activity and a change of scenery often, or you feel restless! You take pride in your mental agility and your friendships. With your ability to adapt quite easily to whatever environment you're in, you can be quite flexible and quick on your feet. There is a strong need to communicate your knowledge to others and to learn. Your curiosity is endless. Advice: Take pride in your intellectual or communicative abilities without feeling the need to lord it over others or to always be "in the know." You have a solid grasp of facts and a strong influence on your peers.

Key points:

Intensely curious, resourceful mind, a jack of all trades, and easily bored. She enjoys movement, small changes, new settings, and stimulating discussions or studies. She needs satisfying channels for self-expression, taking pride in her mental accomplishments. People turn to her for advice, help, or information.

257 Sextile between the Sun and Uranus

It's natural for you to question tradition. You are, above all things, an individualist. You naturally rebel against that which is established. It doesn't mean that you consistently break all the rules, but you do question some of them, especially those that don't make much sense.

You possess a huge distaste for routine. You work best when you have some say as to when and how you get things done.

You possess much self-integrity. You avoid labeling people and are

most offended when others attempt to label or stereotype you.

You easily embrace new ways of doing things, stick up for the underdog, and express yourself in unique and inspiring ways. You don't have to try to stand out as unique--you are original, creative, and progressive without trying. Far from pretentious, you value honesty and truth and avoid putting on airs.

You believe in equality and easily relate to people from all walks of life. You possess an unmistakable enthusiasm, and generally, your life is interesting because you invite unusual or adventurous experiences into your world. Others appreciate you because you are open-minded, fair, and not judgmental. Nothing really seems to faze you! You take things in stride and are rarely shocked or taken aback by human behavior.

Key traits: She is magnetic, intuitive, inventive, unique, and innovative, always seeing where improvements and progress can be made. She is at her best when she feels free to be herself--she doesn't like to be told what to do.

120 Sextile between the Sun and Neptune

There is an unmistakably dreamy, inspired, and sensitive side to you. A marked appreciation for music and the arts is present. The connection of Neptune with the Sun, which represents the ego and the will, certainly softens some of the hard edges that might be found elsewhere in the chart, adding a sensitive and spiritual dimension to your personality.

You are naturally compassionate. It is so completely natural for you to accept that there is more to the world than what's before your eyes that you absent-mindedly presume everyone must be spiritually inclined. Of course, you come to realize that this is not the case at some early point in your life.

Your attraction to spirituality and metaphysical subjects is usually marked. This aspect favors writers, artists, and musicians. You are sensitive to those suffering, although you are not usually taken advantage of.

You are humanitarian and may have a special connection with animals. If other aspects and positions in the chart support it, you are not one to dominate others or assert yourself to the point of brashness. You have a fertile imagination, are full of inspiration, and are very emotional - all qualities you could use successfully on the professional level.

Key traits: She is naturally and genuinely empathetic, compassionate, and intuitive. Her observations and insights are unique and fascinating, making her an original and helpful guide. She has a gentle nature that picks up on subtle cues from her environment.

111 Trine between the Sun and Pluto

You have much sexual vitality and passion. It's easy and natural for you to find a passion, pursue it, and focus on a goal.

Not much scares you! You enjoy and embrace growth, especially of the psychological kind. You love a good mystery, and you are adept at

solving it.

You readily assign meaning to what others might consider "ordinary" events. You look for symbols and read between the lines in almost any situation.

Your physical vitality is generally strong, and your body is usually able to heal quickly. You are not afraid to get your hands dirty, and you are usually quick to help others--not only with mundane tasks but also on a spiritual or psychological level.

Your insight is sharp and sometimes awe-inspiring. You are perceptive and not easily rattled or surprised in life. You are not a do-gooder, nor are you a law-breaker. However, you are not afraid of the "dark side" of human nature, and you will bend the rules from time to time if you feel the need to do so.

You take particular pleasure in growth and life's lessons. You are not fond of superficiality and are generally the first to spot pretense of any kind. You are passionate and can be intense. You have a hunger to experience more than just an "ordinary" life, and you can be quite ambitious. Some people with this aspect are perfectionists, demanding much from themselves and reasonable effort and honesty from others.

Key traits: She is creative, ambitious, and ready to transform or improve matters. She benefits from her willingness to improve, reform, and change. She has determination and willpower and can readily turn around a situation.

-170 Opposition between the Sun and Midheaven

She struggles with finding a career that suits the personality. She may not face up to problems, and her plans are often difficult or even impossible for her to realize.

The Moon

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

The Moon is in Taurus

Familiarity is important to Lunar Taureans. These people are earthy and strong-willed. They feel with their senses, and they are pretty much rooted in their ways. They revel in material comforts--in fact, building a solid and comfortable home and foundation helps to keep them feeling safe and content.

It isn't wise to try to push Lunar Taureans into doing anything, but once they have committed, they're persevering. There's a steadiness to this position of the Moon that is comforting to those close to them. But the conservative streak in these natives can be maddening to more progressive personalities. They tend to go out of their way to avoid "messy" or unpredictable situations, crises, and emotional displays. Instead, they focus on creating a reliable and secure life around them.

In relationships, Lunar Taureans may not easily recognize their partner's need for change, growth, or emotional stimulation. However, Moon in Taurus natives are generally very romantic. Their affections are strong, deep, and unwavering. They are sentimental and warm.

Since Taurus is a practical earth sign, the placement of the Moon in this sign suggests an ability to protect themselves and their own interests. They rarely make a move without first determining that it is safe and that there's something in it for them. Generally, Taurus Moon people have reliable instincts. They are very much tied to the physical world, and they often have a particularly well-developed sense of smell.

Relationships with people born with this position of the Moon are often quite enduring. Many Moon in Taurus people hang onto their mates, even in the face of serious conflict. Taurus is a fixed sign, so break-ups don't happen easily.

There is a calming serenity to them. In fact, it takes a lot to really get to them. However, they do get off-center every once in a while. They are not the most adaptable people when their own routine is interrupted, for example. Though some Lunar Taureans might be considered inflexible, most simply have a stubborn streak that keeps them rather resistant to change. Rarely are they spontaneous sorts.

Uncomfortable with surprises, these natives value stability. Their needs are strong but quite simple at the same time--they love the "good things" in life. The world of the five senses is all-important to these natives. Their love of stability and steadiness can make them

slaves to routine. However, they are loyal and capable people.

Short description:

Sweetness itself. Convinced of her ideas and strong-willed. She is foresighted and willful. She knows how to trust. She appreciates all the good things in life. She appreciates and protects nature.

Possible issues: excesses in pleasure, laziness, sensuality, thoughtlessness.

Moon in V: The Moon is in the fifth house

She likes pleasures, distractions of all sorts. The emotional life is rich. She loves children and may have a lot. She will be self-taught. Likable, dramatic, humorous, and amorous. Could be self-indulgent, irresponsible, or non-committal in youth.

You love to share emotional experiences with loved ones and have a flair for the dramatic. Love affairs are magnetic and intense, and you don't take them lightly by any means, although you may go through much change concerning your romances. Your creative hobbies are subject to relatively frequent changes, and you have innate artistic talent.

A child at heart, you have a vivid imagination and are given to frequent daydreaming. There is a sense that you are always in touch, or trying to get in touch, with your inner child. If the Moon is challenged in your chart, you may have problems with impulsive shopping or gambling or with frequent love affairs that never fully

satisfy you. In any of these cases, you are more attached to the game than the player, which is something to work on if you want to find true fulfillment. You might take risks just for fun, but in the process, you are being irresponsible to others and yourself. However, with age, maturity, or a well-supported Moon, you are entertaining, love friendly competition, musical, spirited, creative, and personable.

257 Sextile between the Moon and Mars

You are a passionate person who loves life. Although your emotions are powerful and immediate, your passion is generally controlled and directed. You can be a sexual person who nevertheless doesn't get too carried away or controlled by your passions.

Because your emotions are strong and you know how to direct them into constructive channels, you don't automatically understand such things as "crimes of passion," impulsive behaviors, or emotional excitability in others.

You're generally open, accepting, and natural in your sexual expression. You need an emotional connection to feel complete on a physical level.

You may have an affection and talent for sports, but other factors in the natal chart are necessary to provide the motivation and commitment.

Short description: She is frank, honest, full of vigor and ambition. She is strong-willed and powerful at work. She is a little hard on herself and sometimes on others whose capacity for action is not as great or

inherent. On an emotional level, craving action or activity.

-136 Opposition between the Moon and Jupiter

She is sometimes indifferent to others, to those who surround her; she is sometimes careless, and perhaps a little negligent and indecisive. She may "feed" inner restlessness with excesses in gambling, shopping, or other comforts, and her honesty is sometimes a bit elastic.

This aspect does not help professional success, especially as she tends to spend more than she earns, but this aspect doesn't deny success either. Making the most of success can be the challenge.

Sometimes enthusiastic and gung-ho, and other times indifferent, it can be challenging for others to understand her.

Key issues: Changeable morals to suit the current situation. Should look for constructive avenues for her inner restlessness and avoid seeking prosperity that's not genuine and reasonable.

Innate qualities to enhance and develop: Wonderful sense of humor and big hearted.

129 Sextile between the Moon and Saturn

She is often successful at controlling her feelings. She has a strong sense of duty and self-esteem and can be very prudent. She can concentrate on a long-term task, manual or intellectual, with success. She perseveres and is serious in most things she does, but can also

be humorous, satirical, steadfast, and upright.

Mercury

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Aquarius

Not necessarily loud or flamboyant, but she often has a quiet way of stirring others up. May delight in exposing what she deems biases in others' way of thinking. Very quick to contradict others and to offer a different perspective, she enjoys intellectual debates. Amazing powers of observation, and a quirky way of looking at the world. Humorous and interesting. Likes practical jokes and raising eyebrows. Very fair and objective.

Mercury in III: Mercury is in the third house

Deep studies. Adaptable. She is attracted to the Arts/letters. She knows how to share ideas. May move around a lot professionally. Can easily keep many irons in the fire at the same time. A true multi-tasker.

This is an especially curious and inquisitive position for Mercury. You are generally very interested in reading, teaching, speaking, exchanging ideas, keeping current with the daily news, and perhaps gossiping. Your interests are many and varied, sometimes to the point that you barely skim the surface of any one topic. You are also very

easily distracted and your attention span can be quite short. Quick to learn, you are also swift to share what you know with others. You can be very talkative when you have the chance. You can be a list maker, and often are quite involved in your community. Some of you can be quite nervous or fidgety.

56 Conjunction between Mercury - Mars

She likes discussions, debates, polemic. She has good judgment and can be very determined. She is a worker and has lots of energy. She has a lively intelligence and usually goes to the heart of things. She is enthusiastic, incisive, and energetic in thought and speech.

114 Conjunction between Mercury - Saturn

She is precise or strives to be mentally organized. She is able to study, concentrate, and focus, and often has the patience to work towards a goal slowly but surely. She may take time to get communications "just so" and prefers step by step directions. Respects tradition and rules, preferring a sense of order.

-133 Square between Mercury - Pluto

She may be impatient, often fearing or imagining the worst that could happen. She likes contradiction. Her arguments can be intense.

You can be very incisive and aggressive with your opinions. You have a tendency towards fanaticism and often want to impose your ideas on others, sometimes in a subtle manner and sometimes more imperatively. You are drawn to mysteries or investigations. There can

be mental fixations or obsessiveness. It would be wise to think things over before speaking and to respect the weaknesses of others.

146 Sextile between Mercury - Lilith

Can be provocative in speech or communications, persuasive, interesting conversationalist, quick to see the flaws of a situation.

Venus

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus is in Aries

Venus in Aries people flirt by being up-front, direct, and even daring. They try to win you over by expressing how enterprising and independent they are. Their style of expressing love can be maddeningly "me"-centered, but the right person for them will find this approach charming. People get turned on by Venus in Aries' aura of innocent charm, even when they are being childish and impatient. Venus in Aries people behave in a childlike, fun-loving manner in love. They are turned on by energy and activity. Turn-offs include a relationship that is considered stuffy or too "mature", vagueness, and beating around the bush. In love, Venus in Aries people are hopelessly addicted to the conquest. In order for a relationship to remain fresh and new for them, they require plenty of stimulation.

Pleasing Venus in Aries involves fueling their need for action. Be

direct, open, and honest with them -- they won't much like game-playing or evasiveness, unless it is in the complete spirit of fun. Feed their need for spontaneity, and appreciate their playfulness.

Understand their desire for the relationship to remain young and fresh. Aries likes to take the lead in love (even if their Sun Sign is gentle Pisces) -- let them, at least most of the time. Indulge them their many whims, and understand that they thrive on competition, even when they're competing with you!

Short description:

Wants to take the lead in love, loving the conquest, can be a spendthrift with money, given to making impulsive purchases, seeks to keep things exciting in love. Very ardent. Spontaneous and charming in her direct and straightforward approach in love.

Venus in IV: Venus is in the fourth house

She is lucky enough to have many happy occasions all through life. Strong friendships which can affect the emotional life. She usually enjoys a good marriage. Happy family life. Good work situation.

You seek balance, beauty, harmony, and peace in your home and domestic life. You might be especially attracted to luxury or quality/comfort items in the home, and you likely have an eye for interior decorating. There is a loving, personal touch to the way you decorate your home. Your love is decidedly sentimental, and you show your affection through nurturing and displays of sympathy. You don't give your heart out easily, but when you do, you do it with great emotion. It's very easy for you to become attached to a partner, and

possibly smothering or overly dependent if you are not careful. Your parents' marriage affects your own partnering skills and style more than most. A parent may be especially charming, beautiful, or otherwise Venusian. On the negative side, this parent may have been especially indulgent or overprotective with you.

39 Trine between Venus - Ascendant

She likes everything beautiful, the Arts, balance, and harmony. She is amiable and sociable. She likes entertainment and has a loving nature.

Mars

Mars represents the desire for action and physical energy.

Mars is in Pisces

Mild-tempered and gentle, people with Mars in Pisces are appealing, attractive, and somewhat indirect. Mars is the planet of action and assertion, and Pisces is a passive sign that rarely asserts itself directly. Sometimes prone to guilt about their anger or difficulties asking for what they want, Mars in Pisces individuals often go with the flow. They may often let life "happen" instead of trying to control their life direction.

This is a charming position, as individuals with Mars in Pisces seem incapable of harming a fly. However, those who don't find creative expression for this energy can stir up a storm through indirect

aggression. They're not averse to playing games to get what they want, although even they don't always know precisely what they do want! Their desires are changeable and moody. When Mars in Pisces people take a stand on issues, often those causes that are Piscean in nature, they make compassion and love their mission.

Energy levels fluctuate greatly, coming in bursts of activity followed by inertia. Because it can be difficult to align this ebbing and flowing of energy in the day-to-day world as it is, finding a job that supports this may be tough but far from impossible. The happiest Mars in Pisces individuals have a creative outlet that allows them to express their desires of the moment, their compassion--and even their anger--freely and imaginatively. Water sports, dance, music, and skating appeal.

Key traits: Able to build energy from deep emotion. Will not step over others to succeed. Requiring more than usual sleep or downtime/escape from everyday pressures.

Possible issues: ambivalence, indecision, and procrastination.

Strengths: A compassion warrior, charitable, ability to downplay the ego for the greater good, great empathy.

Mars in III: Mars is in the third house

Lively spirit, alert and ingenious but can be sarcastic, critical, provocative. She is quarrelsome at times. She expresses herself easily, does what she wants: success is at the end of the road. She is capable and acts quickly.

You speak your mind quite readily, sometimes shooting from the hip when it comes to expressing your ideas and opinions. You tend to know a lot about a variety of subjects, and like to share that knowledge with others (sometimes too forcefully!). You are generally very direct and clear when it comes to communicating. You can easily get worked up about what others might think are trivial matters. You love a good debate. Whether you know it or not, or no matter your intentions, you can be provocative in your communication style. You are likely gifted with manual dexterity, although you might easily become impatient with tasks. At your best, you are enthusiastic, animated, and lively in the way you express yourself, and this can inspire others. You will fervently defend your opinions and beliefs, as well as your family and childhood.

9 Trine between Mars - Jupiter

She has a good sense of organization, she is jovial, frank, and sincere. She is full of dynamism and abundant energy. She loves life, taking all it has to offer. She likes sports and the outdoor life. She is successful professionally and emotionally. She may have many children or projects and ventures.

She is honest and forthright in her dealings with others, and She tends to trust others readily. She can be a bit careless about spending money, however, and this is probably because she is so eternally optimistic that there will always be plenty around. The possibility of failure does not enter her mind, although success itself is not as important to her as enjoyment and happiness are. Can be pleasantly competitive and good-humored.

103 Conjunction between Mars - Saturn

She is energetic and determined. She has strength and resistance, ability and patience. Ascendant is Sagittarius

The world is filled with adventure, new things to experience, and, most of all, hope, with this Ascendant. There is an unmistakable faith and enthusiasm with Sagittarius rising people. Grand schemes, big promises, and a willingness to explore and experiment are themes, although follow-through is not a strong characteristic of Sagittarius. These individuals are somewhat restless and often active people. They always seem to be looking for something that is just out of grasp -- and many do this their entire lives. They can be quite direct at times, yet they are likable enough to forgive for their faux-pas. Most have a lot to say and offer. Their insights and opinions are usually interesting and exciting, although sometimes lacking in details.

Sagittarius rising people have opinions about everything, and they just love telling others exactly what they are. Not all people with this position are outgoing folk, but they all have a way of moving about that at least exudes a certain level of confidence. Some might even call them naive or overly optimistic. Even the quiet ones don't shrink from life and from experience. One of the most obvious and endearing traits of Sagittarius rising is their willingness to keep up a sense of humor. Even when they're feeling low, they manage to find humor in life and have fun with whatever they do have. The placement of Sagittarius' ruling planet, Jupiter, will give more clues to how they go about expressing themselves. Jupiter in Capricorn, for example, might give a more sarcastic approach, but underneath there lies an unmistakable hope and spirit for living.
